DETAILED ACTION

1. The corrected or substitute drawings were received on 9/25/02. These drawings are acceptable.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Miller (Registration No. H526) as set forth in the previous Office action mailed 6/20/02.

Further, Miller teaches injection molding a composite material comprised of epoxy/polymer base matrix and Kevlar®/thermally conductive material (col 6, Ins 13-17; col 7, Ins 15-20 and 35-45; Tables 1, 3, and 5).

4. Applicant's arguments filed 9/25/02 have been fully considered but they are not persuasive. Applicant argues that Miller teaches injection molding as an inappropriate molding means for the taught invention. Miller clearly teaches that injection molding, though expensive, is a viable means for molding the article of Miller. Table 4 of Miller lists the molding methods that can be used with the composite of Miller to form the article of Miller. Injection molding is one of the listed methods.

Applicant also argues that Miller does not teach the claimed composite. The composite of Miller comprises an epoxy and Kevlar ®. Since epoxy is a well-known

polymer and Kevlar® is a well-known thermally conductive material, the composite of Miller meets the limitations of the claimed composite.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Examiner Edmund Lee whose telephone number is (703) 305-4019. The examiner can normally be reached on Monday-Wednesday and Friday from 8:00 AM to 4:00 PM. The fax number for Examiner Edmund Lee is (703) 872-9615

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jan H. Silbaugh, can be reached on (703) 308-3829.
